New Nursery Offer for September 2025

What is changing?

We have always offered a 15 hour nursery for children turning 4 during the academic year.

From September 2025 we are building on this offer to provide 30+ hours of nursery provision for children turning 4.

The 15 hour offer is free to all families. The additional 15 hours are free to most working families, under the government's childcare offer. For those who are not working or those earning beyond the upper threshold, the extra 15 hours are not free. We offer a government funded or privately funded option for these additional 15 hours.
